

# Model CX-1200 Film Thickness Profile Software for Capacitance Thickness Gauges

High Performance Graphical Statistical Software for Off-Line Thickness Gauges

Model CX-1025 Film Thickness Gauge equipped with patented AutoCal™ automatic calibration and Parallelism Adjustment features. Gauge equipped with RS-232 Serial Output.

CX-Series Software Main Screens Showing Thickness Profile Data

## The Oakland Advantage

Oakland Instrument Corp.'s MX Series Process Control software system includes hardware and software to add computer-based gauge operation and output of Linear Profile Graphics and Data Tables.

### Create Custom Recipes with Ease:

Setup parameters allow data collection and display flexibility including control limits, scaling and many more.

### Operator Recall of Recipes for Automatic, Error-free Setup and Operation:

Recipes or "Film Types" can be recalled with the click of a button, to automatically set up your gauge for immediate operation.

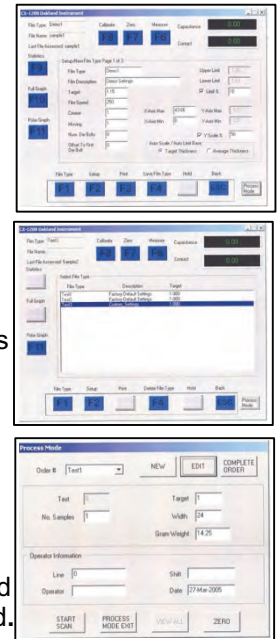

### Process Mode™ Operation Reduces Steps:

Oakland's Process Mode™ of operation allows operators to enter a job number to recall all setup information and parameter, then start running.

### Export Data to Excel™, Access™, MiniTab™, other statistical analysis software packages...

### Card Free™:

Oakland's Card Free™ design means no computer disassembly or ISA or PCI card installation. Just plug and play. Computer can be provided as an option by Oakland.

### Oakland Instrument Corp.

Oakland Instrument Corp. specializes in the design, manufacture and distribution of test, measurement and control systems for the plastics, flexible packaging, and paper industries.

### Customer-Driven

We team with our customers to help them solve their quality and process-control problems.

### Technology-Based

Our applications knowledge and engineering depth allow us to offer both standard and custom systems based on industry leading technology.
