

Model DX-8300 Software for Oakland Falling Dart Drop Impact Testers

High Performance Graphical Statistical Software for Dart Impact Testers

DX-8385-A Pneumatic Dart Drop Impact Tester with proprietary DX-8300 Dart Drop Software and Pass/Fail System Interface. System equipped with USB connectivity.

DX-8300 Software Main Screens Showing Staircase and Pass Fail, ASTM Reporting and Setup Entry Screen

The Oakland Advantage

Oakland Instrument Corp.'s DX-8300 Quality Control Software system includes Hardware and Software to add computer-based tester operation.

Create Custom Recipes with Ease:

Setup parameters allow data collection and display flexibility including starting missile weight, weight increment, test method and many more.

Operator Recall of Recipes for Automatic, Error-free Setup and Operation:

Recipes or "Setups" can be recalled with the click of a button, to automatically set up your tester for immediate operation.

Process Mode™ Operation Reduces Steps to Minimum:

Oakland's Process Mode™ of operation allows operators to enter a job number or recipe name to recall all setup information and parameter, then start running.

Export Data to Excel™, Access™, MiniTab™, other statistical analysis software packages...

Card Free™:

Oakland's Card Free™ design means no computer disassembly or ISA or PCI card installation. Just plug and play. Photos at right show ease of installation of switch interface and software driver plus operating (DX-8300) software. Computer can be provided as an option by Oakland.

Oakland Instrument Corp.

Oakland Instrument Corp. specializes in the design, manufacture and distribution of test, measurement and control systems for the plastics, flexible packaging, and paper industries.

Customer-Driven

We team with our customers to help them solve their quality and process-control problems.

Technology-Based

Our applications knowledge and engineering depth allow us to offer both standard and custom systems based on industry leading technology.
